This is an example only.

Budget your electricity usage

How much do I need to pay to heat water?

Switch OFF all other appliances while your geyser is ON.

Press button 8 to see your present load and cost per hour.

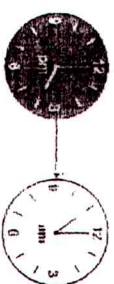

Example: average usage 5 hours/day	
Hourly cost	5.00
Daily cost	25.00
Monthly impact on your budget	750.00

Decide on your monthly cost, you can link up your electricity usage.

Friendly Credit (FC)

No disconnection on:

Weak days (during evening, night and only morning)

Weekend and holidays:

* FC may vary as per your electricity board

Alarms

What to do when you hear an alarm

Message Action on Alarm

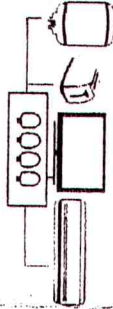

LOW MONEY 1. Press any button to acknowledge. 2. Recharge soon.

NO CREDIT 1. Your supply is disconnected. Press any button to enable emergency credit and temporarily restore your supply. 2. Recharge immediately.

EM CREDIT 1. You are using Emergency credit. 2. Recharge your meter immediately to avoid disconnection.

EM CREDIT may vary as per your electricity board

Reducing overloads

In case of overloading, the meter will sound an audible alarm and the High Load display will flash as a warning. If condition persists, the meter will disconnect supply.

OVERLOAD

Switch OFF unnecessary appliances to reduce the load.

Next press button 0 to reconnect supply.

Frequently asked questions

1. What does it mean if I receive a recharge code of more than 20 digits?

You have received a code with more than 20 digits. If there is a change in the tariff, the meter will show the new tariff code to recharge.

2. When entering the code, I see the message 'K8 Lock'. What does it mean?

K8 lock means key board lock. The keypad is locked when you enter the recharge code incorrectly five times in a row. If this happens, wait for 30 secs and try again.

3. Is there a min or max limit to the electricity that I can purchase?

Min Recharge - 100Rs
Max Recharge - 15,000/-

4. How can I predict the number of days credit left in my meter?

Press button 3 to see the number of days before your account balance will run out. This forecast is based on your usage cost over the last seven days.

5. I'm changing my house and have balance in my meter. What do I do?

If you plan to move house, it is best to recharge only as much as you need. Visit the electricity board to settle the balance money or get refund.

6. What is Friendly Credit?

If you run out of the emergency credit during a weekday after 4 pm, the supply will not go off until 11 am the following weekday. If your Emergency Credit runs out at any time during the holiday, the supply will not go off until 11 am the following weekday.

7. What is a standing charge and how is it applied?

A 'standing charge' is a fixed amount deducted from your account balance every day. This charge is based on your usage cost over the last seven days.

8. What is an Authorized Billing Code (ABC) code?

This is a self-generated code by the meter and is used by your electricity board to transfer billing information from your meter. Press button 9 to view this code.

9. Can I view my month wise consumption cost for the previous year?

Press button 7 to view month wise consumption cost for the previous 12 months.

10. What if I lose the recharge code?

The electricity board will issue the code again at no extra cost.

Following is an example recharge code

Used Amount (Rs)	50.00	50.00
Free Used Amount (Rs)	50.00	50.00
Free Charge (Rs)	50.00	50.00
Free Credit Amount (Rs)	50.00	50.00
Free Charge (Rs)	50.00	50.00
Free Credit Amount (Rs)	50.00	50.00
